IN TWO SECTIONS—SECTION TWO

Index to Volume Twenty-Four of The Paper Industry and Paper World

April, 1942—March, 1943

Page numbers in this index are preceded by numbers of the issues. April, 1942, is No. 1 and March, 1943, is No. 12

A

Adams, Charles S. *2
Alexander, E. H., Selection-installation-maintenance of control equipment.. 5, 495
Ambach, E. H., Oxyacetylene welding and cutting in paper mill maintenance 3, 271
Appling, John W. *1
Are your employees afraid of you?.... 9, 935
Association Meetings
A.P.P.A. wartime conference.....12, 1236
Annual meeting of Canadian Pulp and Paper Association.....11, 1142
Canadian Technical Section holds summer meeting..... 4, 398
Divisional group meetings.....12, 1262
Kalamazoo TAPPI and Michigan superintendents meet together.....11, 1140
NAM war congress of American industry 10, 1007
National Paper Trade Association..12, 1270
"Paper prevents battlenecks" theme of TAPPI annual meeting.....12, 1242
Safety Congress mobilizes to "save manpower for warpower"..... 8, 839
Salesmen's Association shows gain despite wartime.....12, 1268
Superintendents convene in wartime meeting 4, 376
Wartime subjects highlight meetings of paper week.....12, 1232
"Ye autumn meeting of TAPPI".... 7, 713
Association reports.....12, 1300
Atchison, Joseph E. *1

Control equipment, selection-installation-maintenance of 5, 495

CONVENTION PAPERS, ABRIDGED

American Pulp and Paper Mill Superintendents Association
All-out maintenance and substitution program, P. S. Sinclair..... 7, 756
Care of modern mechanical water removal equipment on paper machines synchronized to the war effort, O. C. Cordes..... 8, 862
Care, study, and ingenuity applied to flat screens, Allen A. Lowe..... 8, 866
Conservation by electroplating, D. H. Bissell..... 7, 759
Fine papers and the war effort, B. L. Kassing..... 9, 958
Fourdrinier wires in the war effort, Harry G. Specht..... 9, 956
Maintenance and substitution, W. F. Hoffman..... 8, 868
Maintenance of clean paper, F. K. Becker..... 9, 964
More steam without more boilers, George H. Urban..... 7, 750
Paper machine maintenance, Charles S. Adams..... 8, 869
pH control system on cylinder board machines, Glen Sutton..... 7, 758
Use and care of paper mill felts, A. Perlick 7, 755
Vortrap's contribution to the war effort, Douglas Robbins..... 9, 962

National Safety Council
Chairman's annual report to the paper and pulp section, Clayton O. Braatz. 8, 858
Female labor in the paper converting industry, W. E. Strong..... 8, 859
Hazards and their elimination in the corrugated and solid fiber box industry, D. E. Maynard..... 8, 860
Review of 1941-42 paper and pulp accident experience, F. W. Braun..... 8, 860
Why top management must actively participate in a safety program, R. A. Hayward..... 8, 858

Technical Association of the Pulp and Paper Industry
Advantages of sulphonated tall oil in manufacturing coated paper, the, Edmund Getty..... 1, 88
Alkaline purification of cellulose, G. Goldfinger, H. Mark..... 4, 442
Alum substitutes, H. E. Duston..... 3, 307
Application of the electron microscope to problems of the pulp, paper and paperboard industry, George R. Sears, Evelyn A. Kregel.. 7, 764
Calcium bicarbonate removal from water in sulphate mills, H. W. Frazer..... 2, 180
Causticizing, reburning, and settling in sulphate lime recovery, George B. Hughey, L. Kermit Herndon, James R. Withrow..... 3, 312
Chart for speck analysis, B. L. Browning, John H. Graff..... 8, 870
Chemical character of water available for pulp, paper, and paperboard manufacture in the United States, W. D. Collins..... 6, 636
Chemical industries as potential users of paper containers, the, R. W. Lahey..... 4, 440
Colloidal properties of aqueous dispersions of titanium dioxide, S. W. Martin..... 5, 534
Colored materials of alkaline cooking liquors, the, Glenn C. Kimble.....10, 1068
Comparison of the capillary flow and falling sphere methods of determining the viscosity of cellulose in cuprammonium solutions, a, R. S. Hatch, R. N. Hammond, J. J. McNair..... 4, 436
Composition bearings in paper mills, J. A. Petho, Frank W. Vogt.....11, 1158
Control of direct-heated sulphite digesters, John F. Inderdohnen..... 7, 768
Cuprammonium viscosity as a control method review, Thomas W. Toovey.11, 1162
Cupriethylenediamine as a solvent for cellulose fractionation, F. L. Straus, R. M. Levy..... 7, 762
Development of naval stores and pulpwood supplies from the pinus mercusi of northern Sumatra, D. G. Moon..... 1, 80
Development of weatherproof solid-fiber and corrugated shipping containers designed for overseas shipment, E. R. Hankins.....12, 1232
Diatoms in paper manufacture, Howard W. Hall, Jr..... 9, 973
Drying rate for kraft paper, A. E. Montgomery..... 4, 434
Effect of mill operations on the number of bacteria found in paper and paperboard products, J. R. Sanborn.....10, 1074
Effect of small additions of bleach liquor on the bacterial content of sulphite pulp, the, John W. Appling, Bernard F. Shema.12, 1238
Enzyme conversions, E. P. Gillan..... 7, 742
Estimation of the dialdehyde type of oxidation in oxystarches and oxycelluloses, D. H. Grangaard, E. K. Gladding, C. B. Purves.....10, 1072
Fiber cans as substitute packages in wartime, R. P. Bigger, F. H. Bopp, T. E. Dobbins.....12, 1236
Fiberizing of kraft screenings for paper and paperboard furnishes, Clinton K. Textor..... 9, 976
Flow spreader, the, Samuel M. Bratton, Frank M. Sanger.....10, 1062
Fluorescence of the extractives of wood, William W. Marteny..... 8, 877
Folding carton and fibreboard substitutes for metal containers, J. D. Malcomson..... 9, 970
Fuels and power plant operation, B. F. Burns..... 5, 540
Function of a yankee dryer on a paper machine, the, Kurt Wandel..... 1, 74

(*) See Convention Papers . . . Abridged. (1) TAPPI; (2) Superintendents Association; (3) National Safety Council.

Further comparison of sodium and calcium-base sulphite acids, a, M. O. Schur, R. E. Baker..... 2, 214
Gypsum in the sulphate recovery process, T. T. Collins, Jr., H. J. Hotz, E. Wiberg..... 2, 212
Heat insulation—its relation to mill efficiency, R. C. Parlett.....11, 1165
Hide glue for tub sizing, O. V. Simonson..... 7, 748
Influence of cooking and bleaching upon the chain length distribution of the carbohydrate fraction in pulpwood, the, Joseph E. Atchison.....12, 1282
Laminated plastic—one answer to shortage of critical metals, F. P. Hunsicker..... 9, 972
Lighting for plant efficiency and safety, A. K. Gaetjens..... 1, 78
Measurement and influence of fiber length, the, James d'A. Clark..... 6, 637
Measurement of greaseproofness, the, E. A. Georgi, Philip Nolan..... 4, 430
Mechanization of paper packaging, Charles Stevens.....10, 1060
Methods of reducing chlorine consumption, T. W. Toovey..... 2, 190
Multiple-specimen Neenah expansimeter, J. A. Van den Akker, Carleton Root, Willmer A. Wink... 3, 306
Multistage bleaching of kraft, Sidney D. Wells, Frederick B. Schelhorn..... 3, 314
Nature of fiber staining by iodine stains, the, Herbert W. Rowe..... 8, 873
New method for measuring specific surfaces, a, James d'A. Clark..... 6, 640
Nonfibrous raw materials in the paper industry report, 1941, E. N. Poor.... 2, 204
Packaging of dehydrated foods, Charles Watson, 3rd..... 8, 879
Paper characteristics versus ink coverage, George Cramer..... 2, 202
Physical basis of standardization of brightness measurement, the, J. A. Van den Akker, Philip Nolan, Willmer A. Wink..... 1, 86
Power teamwork for victory, Phillip W. Swain.....10, 1060
Radiant heat and its application, James D. Hall..... 2, 198
Rayon and the war, Dan B. Wicker...12, 1290
Recent developments in the treatment of papermill water, Eskel Nordell... 7, 744
Relation of lignin content to the strength of paper and paperboards, W. F. Fowler, Jr., W. M. Harlow.... 7, 764
Role of the technical librarian in the paper industry, the, A. Catherine Davies.....11, 1160
Some economies in chlorine consumption in bleaching chemical wood pulp, John D. Rue, S. C. Nagel..... 9, 978
Some factors in detergency, Foster Dee Snell.....12, 1294
Starches in paper and paperboard manufacture, James P. Casey..... 2, 194
Steam saved by better water removal at the presses, W. G. MacNaughton 5, 540
Structural viscosity studies of coating clay compositions, George H. Sheets 2, 182
Synthetic rubber for industrial applications, H. H. Harkins.....11, 1168
Testing printability of paper with ink, F. A. Weymouth..... 3, 318
Trends in combustion control, M. J. Boho..... 9, 974
Two-sidedness of colored paper, Otto Kress, Edwin J. Loutzenheiser, Jr. 2, 208
Use of aldehydes in the analysis of sulphate liquors for total alkali, the, D. Romund Moltzau..... 3, 310
Utilization of cornstalks in the manufacture of paper and paperboard, Sidney D. Wells, Roger L. Steller...12, 1288
Variable angle surface illuminator, the, John H. Graff..... 9, 968
War time government specifications for paper and envelopes, M. S. Kantrowitz, R. H. Simmons....12, 1296
Water in the paper industry: new developments and wartime economy, Robert T. Sheen, Lewis B. Miller....11, 1156
Water treatment developments, W. R. Gibson..... 5, 538
What is tack?, Henry Green..... 3, 309
Converting plants, hazards in paperboard mills and.....10, 1031
Cordes, O. C. *2
Core waste monograph..... 4, 373
Costs for paper mill executives..... 3, 275
Cramer, George *1
Current Thought
An example of free enterprise.... 7, 690
Getting a new perspective..... 9, 922
Let's get rid of our illusions..... 1, 34
Might is right.....11, 1120
Probably what you have been thinking, too 2, 138
Replying to yours — — 3, 262
